9 In the G.O.dated 9th June 1925 sanction was accorded to an estimate for Rs.30,000 for giving house connections and carrying out sundry works in the several drainage areas in the City on condition that the work should be carried out in 3 years, the Trust Board providing annually a sum of Rs.10,000 in their Budget for 1925-26 and onwards. Accordingly the present estimate for Rs.9,135 seems to be for the second instalment of work during 1926-27 against the provision of Rs.10,356 in the Trust Board Budget "under construction works"

10 The estimate for which there is full provision in the Budget may therefore be sanctioned.

11 G.O. dated the 9th June 1925 sanctioning estimate for Rs.30,000/- for giving house connections and other sundry works in the several drainage areas referred to therein is put up It will be seen from this that the idea was to execute the works in 3 or 4 years.

12 A triennial programme of works to be executed for 3 years from 1926-27 has been sanctioned since and a provision is made in this year's budget for carrying out the works included in the year's programme.

SIR,

Jud 35-26 — 6

I have the honour to forward herewith an estimate amounting to Rs 9 143 for completing the sewerage system in Nazarbad Drainage area sanctioned by the Board of Trustees at their ordinary meeting held on the 19th June 1926 and to request that you may be so good as to obtain the sanction of Government thereto

The report accompanying the estimates and plans in duplicate explains the nature and details of the work and a copy of the Board's Resolution thereon is appended for reference Similar comprehensive drainage schemes for the remaining portions of the City are being prepared and soon after they are ready, they will be submitted for sanction one by one The work will be taken up blockwar by instalment by providing some amount in the budget every year as detailed in the Abstract estimate accompanying

I have the honour to be
Sir
Your most obedient servant

Report to accompany the estimate for completing the sewerage system in Nazarbad Drainage area Mysore

Amount of estimate Rs ~~9 143~~

This drainage area comprising Blocks Nos 36 and 41 37,38 42 and 43 and 70 and 71 is roughly bounded by Hydergunta Road on the East and North Nazarbad Road on the South and Residency Road on the West An estimate amounting to Rs 1 06 176 for laying pipe sewers in this Drainage area was sanctioned by Government in their Proceedings No 4713/M1 24-10-82 dated the 6th July 1918

As all the drainage estimates were open from a long time and had become out of date both in details of works and rates provided these estimates were closed as per Government Order No L 6327-6/M1 19-24-5 dated the 26th February 1925 treating the booked outlay as final For facility of giving house connections and to carry on other sundry works connected therewith an estimate for Rs 30 000 was got sanctioned by Government in their order No L 8762-4/M1 34-24-64 dated the 9th June 1925 in place of the other drainage estimates closed

Now that comprehensive drainage schemes for the remaining unworked portion of the City to suit to the growing needs are being got up blockwar for purposes of easy handling and restricting expenditure on particular blocks yearly as shown in the General Abstract estimate it is found necessary to combine these blocks into their respective drainage areas and get the sanction of Government thereto instead of getting sanction for each block separately Hence, the necessity for this estimate The total outlay on this Drainage area up to end of June 1925 when the estimate was closed is Rs 64 949 and the total amount including the cost of the present estimate under submission will be Rs ~~74,092~~ 32092 There would thus be a savings of Rs ~~32 084~~ out of the original sanctioned amount as

as a result of re-alignment after close ins ection of the locality

Rates are usual and call for no remarks sanction to the estimate is requested
